Since declaring Independence from the State of California on January 15, 2019 the New California State movement has filed 88 of 95 Grievances against the state of California.

Now its clear the people of California are fed up with those who are turning the state into a socialist bastion in the United States of America.

The people of California have spoken with two “Recall” efforts against the governor of California. Article II of the California Constitution, approved by California voters in 1911, allows people to recall and remove elected officials from office.

In the first case “Recall” supporters have until February 13, 2020 and in the second supporters have until March, 5, 2020 gather the required signatures. Both efforts must gather 1,495,709 valid signatures, 12% of the votes cast in the last election for governor.

New California State understands the frustration of the people of California and views their effort to recall the current sitting governor as a “grievance” in line with the efforts to create New California State.

New California State welcomes the “Recall” effort and supports the citizen’s right to recall the leader of a state government that is moving the state of California into socialism.

Most people think to change the governor will lead to a state governance system that will return to normal. However the real question is will a recall of the governor stop the fast progression of the socialist take over? The answer is NO it will NOT change the “system” of California governance that is on track toward socialism.

California has NO political party system and this like all other elements of its governance system is in complete breakdown. The end result is a broken failed state with no future and no hope to return to the fundamentals of a republican form of government.

While the recall effort is a sense of the people’s frustration and a statement against the mono party system they sense is in their future, NO ONE should be fooled by the recall effort. California is a multi-headed government which requires all heads to be replaced.

The only real answer to stop the socialist take over of California is the formation of a new state under Article IV, Section 3 of the United States constitution.

There is one hope and that is a new constitution that the State of New California will provide to those in New California State.

New California is a new state in development exercising it’s Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article 4 Section 3 of the United States Constitution.
